

PRODUCT *Dimensions*

Please note: this document reflects the current product builds for the 2025/26 school year.

Make Science Happen

How will my order arrive?

How the order will arrive depends on the size of the order, and which products are being shipped. If it's a small order, then it may be shipped in multiple boxes whereas larger orders will be shipped on a pallet.

For print products, Student Editions can have anywhere from 18-25 books per carton and Teacher Editions have anywhere from 5-12 books per carton. The carton sizes may vary, most Student Edition cartons will be 17" x 11" and most Teacher Edition cartons will be 20" x 12". The height of the carton can vary as it may be a full carton or a partial carton.

Pallets are standard size at 48" x 40" and can have a varying number of boxes depending on the size of the order. For print products, each pallet can hold on average 45-50 cartons. For kit products, it can range from 12-25 cartons per pallet. The pallet also has a height restriction of 60" maximum.

This information can help determine how many pallets will be sent for larger orders, but is an estimate. The actual pallet count will not be determined until the warehouse packages and prepares to ship out the order.
